URGENT

The Embassy of the Kingdom of Morocco in Belgrade presents its compliments to the University of Belgrade -Office of the Rector- and has the honor to inform that the Government of the Kingdom of Morocco offers 15 scholarships for Serbian students wishing to pursue their studies at public Moroccan establishments for higher education, technical and vocational training for the academic year **2021-2022**.

Since French is the language of study in the scientific, technical and economic fields, **candidates who do not master this language will be required to pursue language upgrading program in the French Cultural Center in Serbia.**

Subsequently, and after the completion of the said program, the students who succeed in passing the linguistic tests will be orientated to the following majors, based on the scientific quality of their applications, and taking into consideration the order of merit and their respective choices:

**Medical studies – Paramedical Science – Commerce and Management – Engineering and Technological Sciences - Agronomic and Veterinary Sciences – Architecture.**

Additionally, the selected candidates should have the following documents before coming to Morocco for the academic year **2022-2023**:

- \* A long term student visa;**
- \* A medical certificate confirming that they are vaccinated against infectious and contagious diseases, such as the Tuberculosis.**

On the other hand, it is worth mentioning that, unfortunately, as a result of the COVID 19 pandemic, **the capacity of the Moroccan Universities campuses has been reduced to 50%. Therefore, it cannot meet the demand of new international students, thus they will have to rely on the private sector for accommodation.**

The Embassy would like to underline that the **deadline for submitting applications to the Moroccan Agency for Interactional Cooperation (AMCI) is set on October 30<sup>th</sup>, 2021.**

Further information on public training institutions, the procedure and the registration formalities are available on the following websites:
